A
BRIEF SKETCH
OF
TRAVANCORE.

Description.—Travancore (Mal. Tiruvitankur, Sans. Srivardhanapuri, the place where the goddess of prosperity resides), the southern portion of the ancient division of Kerala, is situated between 8° 4′ and 10° 21′ North Latitude and between 76° 13′ and 77° 38′ East Longitude. It is bounded on the north by the State of Cochin and the District of Coimbatore, on the east by the Districts of Madura and Tinnevelly and on the south and west by the Indian Ocean. The extreme length of Travancore from north to south is 174 miles, its extreme breadth 75 miles and its area 7,624·84 square miles. The State is in subsidiary alliance with the British Government to which it pays an annual tribute of Rs. 8,00,000. Compared with other States, it is more than five times the size of Cochin and six times that of Pudukotta. It is above seven-eighths of the size of Baroda, two-sevenths of Gwalior, one-fourth of Mysore and one-twelfths of Hyderabad or Kashmir. It is smaller than the Principality of Wales by about 250 square miles and bears to England and Wales together the proportion of one to eight.

Physical Geography.—Travancore is one of the most picturesque portions of Southern India. The mountains which separate it on the north and east from the British districts are clothed with magnificent primeval forests, while the belt of flat country, to an average width of 10 miles inland from the sea, is covered with an almost unbroken mass of cocoanut palms which in a great measure constitute the wealth of the country. The whole surface is undulating, and presents a series of hills and valleys, traversed from east to west by numerous rivers. At the southern end of the State lies Nanjanad, with its clusters of houses, palmyra groves and extensive paddy fields, resembling in some respects the neighbouring District of Tinnevelly.

The hill scenery has peculiar beauties, among which are the wild, rocky and precipitous acclivities and fantastic forms of the mountains in the southern parts. The valleys are studded with temples and churches. The numerous houses and gardens scattered over the country give it an appearance entirely different from that of the east coast of India.

The hilly region is very extensive and is a marked feature of the country. The mountains possess every variety of climate and vegetation and can boast of extensive tea and rubber plantations run both by Indian and European agencies. Their elevation differs equally widely, the loftiest among them, the Anamudi Peak (8837 ft. above sea level) being the highest in India next to the Himalayas. The Cardamom Hills, with an area of about 400 square miles and an elevation of about 3,500 ft., are still the abode of the elephant and the bison and are the favourite hunting ground of world renowned sportsmen.

The climatic variations of the whole of India may on a small scale be experienced in Travancore, though a warm humidity is one of the special features of its climate. On some of the peaks, the pinching cold of the northern regions of Europe may be felt ; lower down, on an elevation of between 3,000 and 4,000 feet, one meets with the bracing temperature of England, while a cloudless sky with a clear sun marks the cessation of the heavy monsoons. From January to May there is intense and oppressive heat which at times becomes so intolerable that some of the taluks then present the aspect of a true equatorial region.

Numerous rivers rise in the Ghats and flow by tortuous courses, through high banks and rocky beds, into the backwaters and the sea. Most of these are navigable for some distance inland. The most important of these rivers is the *Periyar* rising in he High Ranges, which after a course of 142 miles enters the backwater of Kodungalloor (Cranganore). A portion of its enormous discharge of water is now diverted into Madura by the Periyar waterworks. The next in importance are the *Pamba* (90 miles), the *Kallada* (70 miles), the *Kulakada* (70 miles), the *Muvattupuzha* (62 miles), the *Karamana* (42 miles), the *Thambraparni* (37 miles), the *Neyyar*, the *Minachil*, and the *Vamanapuram* (35 miles each) rivers. The Thambraparni has been bunded up and the reservoir so formed irrigates an extent of about 70,000 acres of wet land in Nanjanad.

A succession of lagoons or backwaters, connected by navigable canals, extends along the coast, almost throughout its length forming a most important means of communication. This system of water communication extends from Tirur, in British Malabar, to about 20 miles south of Trivandrum ; between the latter place and Quilon, there rises at Varkala a high promontory of land, about 6 miles in breadth, the highest portions of which have been tunnelled through in two places to a length of over a mile, while the remaining portions have been cut open into a canal, thus making the line of water communication complete. A strip of land, from seven miles to about half a mile wide, separates these backwaters from the sea. There are however several outlets from them to the sea. The bulk of the

country has been opened up by a net work of roads and canals, and in Central and South Travancore there is a mile of road to almost every square mile of country. North Travancore is however not so well served by roads and strenuous efforts are being made to bring it up to the same level as Central and South Travancore. The Cardamom Hills are the only area in the whole State that have not yet been opened up for wheeled traffic. One line of Railway about a hundred miles in length now cuts across the State from east to west and thence runs along the coast from north to south and more Railway lines are in contemplation.

Geology of Travancore.—The State is not rich in such minerals as gold, iron or precious stones, but mica exists in sufficient quantities and the monozite sands of South Travancore have attracted the attention of the world. The Lignite of the Varkala cliffs and the Kaolin deposits scattered over the country are also of great promise.

Production.—Travancore is essentially an agricultural country. A feature peculiar to the agriculture of the State is that the proprietors and the tenants of the land mostly live on the land itself. The chief food grain in the country is rice or paddy (Oryza Sativa). Great millet or cholam (Sorghum Vulgare), samai (Panicum milliare) and ragi (Elusina Corcana) are also grown. The following are also grown in the country:—

Pulses:—1. Horse-gram (Dolichos biflorus) 2. Red-gram or Pigeon pea (Cajanus indicus) 3. Green-gram (Phaseoulus Mungo) 4. Black-gram (Phaseolus Roxburghii) 5. *Vaddakan* payar 6. Kozhinji or Perum payar (Phaseolus coccineus).

Condiments and spices:—1. Turmeric (Circuma longa) 2. Pepper (Piper nigrum) 3. Betel (Piper betel) 4. Ginger (Zingiber officinale) 5. Cardamoms (Elettaria Cardamomum) 6. Chillies (Capsicum frutesceus) 7. Tamarind (Tamarindus indicus) 8. Onions (Allium cepa) 9. Garlic (Allium Sativum) 10. Coriander (Coriandrum sativum) 11. Cumminseed (Cuminum Cyminum) 12. Mustard (Brassica nigra) 13. Fenugreek (Trigonella Foenum-Groecum).

Garden products:— 1. Cocoanut (Cocos nucifera) 2. Areca-nut (Areca catechu) 3. Plantain (Musa sapientum) 4. Mango (Mangifera indica) 5. Jack (Artocarpus integrifolia) 6. Bread fruit (Artocarpus incisa) 7. Lime (Citrus acida) 8. Pomegranate (Punica granatum) 9. Cashew-nut (Anacardium occidentale).

Edible Roots :— 1. *Chena*, Elephant yam (Amorphophallus campanulatus) 2. *Chembu*, Egyptian Aram (Colocasia Antiquorum) 3. Kachil--White (Dioscorea aculeata), Red (Dioscorea rubellum) 4. Tapioca (Manihot utilissima) 4. Sweet potatoe (Ipomea batatas) 6. Arrowroot (Curcuma angustifolia) 7. *Seevakizhangu* 8. *Cherukizhangu*. Tapioca supplements the food of the people materially.

Oil seeds :— 1. Gingelly (Sesamum indicum) 2. Castor (Ricinus communis) 3. Laurel (Calophyllum inophyllum).

Other crops :— 1. Palmyra Palm (Borassus flabellifer) 2. Sugarcane (Saccharum officinarum).

Planting products :— 1. Tea, 2. Coffee, 3. Rubber.

As in other parts of India, rice is the staple article of food. But tapioca root supplements it very largely.

Pepper and cocoanut contribute mostly to the wealth of the country.

Population.—The total population of the State as enumerated at the Census of 1921 is 40,06,062. Hinduism is the predominant religion of the State, its followers constituting about two-thirds of the entire population. Christianity which was established in the land in the first century of the Christian era itself comes next with a following numbering over a fourth of the entire population. The Mahomedan religion claims a sixth of the population and its adherents rank numerically the third.

In point of education, Travancore is ahead of British Indian and most of the other Native States and maintains the position it occupied in 1901. The proportion of literates works up to 279 per 1,000 of the population. Males number 380 per mille of the sex and females, 171.

IMPORTANT TOWNS AND OTHER PLACES OF INTEREST.

Trivandrum.—This town forms the southern terminus of the Travancore branch of the South Indian Railway. It is the residence of His Highness the Maharaja and the head quarters of His Government. The celebrated pagoda of Sri Padmanabhaswamy within the Fort has made it a great religious centre and attracts pilgrims from all parts of India. The Fort and its neighbourhood constitute the most crowded part of the town. The military cantonment, the Government offices and other public buildings and the residences of the upper classes are picturesquely situated on small eminences, each commanding a refreshing scenery of verdure all around. The town is liberally supplied with well-equipped

colleges, schools and hospitals. There is a well laid-out park, with a museum and a menagerie. The seaport is at Valiathurai, about one mile from the town. It is an open roadstead, with deep water close to the shore. A pier for the landing and shipment of cargo, 500 feet in length, and fitted with two steam derricks, has been erected. The five fathom depth line is about 600 feet off the end of the pier, but steamers anchor in 12¼ fathoms, 4/10 of a mile, off shore. It is a port of call for coasting steamers when inducement offers. Twenty-two miles north of Trivandrum is Varkala, which can be reached by the South Indian Railway. To the Hindu pilgrim, throughout India, this place is known as "Janardanam". This is as sacred to him as Gaya in Northern India.

Nagercoil.—Nagercoil stands within 7 miles of the Aramboli Pass through which runs the high way from Tinnevelly to Travancore, and is the only important town south of the Capital. With Nagercoil as the nucleus, the town comprises a number of villages *viz.*, Kottar, Vadiveeswaram, Ozhughanacherri and Vadaseri. Of these, Kottar and Vadaseri form the trading and manufacturing centres. The town owes much of its improvement and its position to the efforts of the Christian Missionaries.

Ten miles to the south of the town is Cape Comorin. This is the southern-most point of India and is a famous place of pilgrimage. The temple, dedicated to the Goddess Bagavathi (Virgin Goddess), is also a place of archæological importance. There are churches on the coast, the chief of which is the Roman Catholic church at Kumarimuttam.

Colachel is the southernmost sea-port in the State and a port of call for coasting steamers. Sea-going steamers call occasionally to load monozite and palmyra fibre for Europe. In former years, Travancore coffee was prepared and exported from this port, but this trade no longer exists. There is a group of outlying rocks in front of the town which form a partial breakwater, under the shelter of which landing and shipping operations are carried on from the beach. Steamers anchor in 7 fathoms of water half a mile off the shore. Small vessels anchor in about 5 fathoms less than a quarter of a mile from the shore.

Ten miles to the north west of Nagercoil is the Fort of Udayagiri. This was formerly one of the principal military stations of the State. The Fort was built by the Dutch Commander of the Travancore forces, D'Lannoy, and is built of strong granite blocks round a lofty isolated hill. The tomb of D'Lannoy still stands in the chapel inside it. Padmanabhapuram which was once the capital of the State and the residence of the Maharaja, is about a mile to the north west of this Fort.

Shencottah.—The head quarters of the taluk of that name lies at the foot of the Ghats on their eastern aspect. The main road that runs through it connects the British town of Tinnevelly with the port of Quilon. There are several coffee estates in its neighbourhood.

This is the first railway station in the Travancore territory on the Tinnevelly-Trivandrum line. Within a distance of three miles are the celebrated Courtallam falls largely used as a sanitarium by the people of South India for a period of three or four months from June. Midway between Shencottah and Quilon is the village of Punalore, where is located a paper mill constructed years ago. The paper manufactured from this mill is largely purchased by the Governments of Madras and Travancore. A suspension bridge across the Kallada river has been constructed here many years back.

Quilon.—Quilon is one of the oldest towns and one of the most important ports. This town has a reef of rocks for its beach, which prevents its corrosion by sea and helps the ryot to plant cocoanut trees so near the water's edge that their shadows fall on the beating surf, a phenomenon not met with in any other point of this coast. On the south is the beautiful bay known to the earliest mariners of Europe as affording a perfect natural protection to ships in the worst weather. With the opening of the railway, Quilon finds herself in direct and easy communication with the towns of the Madras Presidency and is likely to regain her former position as an important commercial centre. The Palace of His Highness the Maha Raja stands out boldly into the eight-armed lake, known as the Loch Lomond of Travancore. Cotton spinning and weaving and the manufacture of tiles are its chief industries. The sea-port is an open roadstead situated off a bight in the coast formed by the Tangacherri point, a British possession, projecting slightly beyond the coast line. During the fine weather period from September till May, vessels can anchor in the inner anchorage in 4½ to 5 fathoms of water, 4/10 of a mile off the shore.

Mavelikara.—The former capital of the principality of that name is famous in Travancore history as the place where Rama Iyen Dalawa, the minister who assisted Maharaja Martanda Varma in consolidating Travancore, died. The remains of a large fort, about two miles in circumference, could still be seen.

Alleppey.—This is the most important commercial town in the State. Open to foreign trade since the latter part of the 18th century, it has long been the premier port of Travancore, and has become an important trade and industrial centre, having backwater communication with the surrounding country. The manufacture of coir matting is carried on extensively, besides hydraulic baling of coir yarn and fibre for foreign markets.

Cocoanut oil mills worked by steam power have also been established. The town has an extensive canal system, connected with the backwater, which affords considerable water frontage of immense importance to merchants and transport of goods. As a sea-port, Alleppey owes its importance to a mud-bank off the coast, which renders the sea smooth for shipping operations, though it shifts its position occasionally. It is an open road-stead with good holding ground of sand and mud. It has a pier 756 feet long, fitted with three hand cranes, for handling cargo, also large godown accommodation. The port is closed during the S. W. monsoon, generally from about the 15th May till the 15th September. Steamers, however, call at or near the port during the monsoon, when weather conditions permit, and when the mud-bank is sufficiently developed to afford smooth water for shipping operations, as may be notified by the Marine Department. The port is also provided with a light-house.

Ambalapuzha.—Eight miles to the south of Alleppey is Ambalapuzha which was once the capital of the Ambalapuzha or Chempakaseri principality annexed to Travancore in 1754 by Maharaja Martanda Varma. The famous temple here is dedicated to Sri Krishna.

Vaikom.—Twenty-three miles to the north of Alleppey is Vaikom renowned for the temple dedicated to Siva. Pilgrims visit this place from many parts of South India in the months of March and December every year on the occasion of the Ashtami festival.

Kottayam.—This town, situated on the banks of the Minachil river, was the scene of the labours of the early Anglican Missionaries and is now the centre of the Syrian Christian community, possessing one of the most ancient Syrian churches in all Malabar. It was in the old Syrian Seminary here that English education was first imparted in Travancore. At present there is a second grade College besides other educational institutions.

Changanacherry.—This town was once the capital of the principality of Tekkumkur. It possesses the grandest Syro-Roman Church on the Malabar Coast. One of the important markets in North Travancore is held here, and people come to it from all parts of the country. It is situated on the main central road that connects Trivandrum with Ernakulam, the capital of the Cochin State.

Thiruvella.—This is another town of importance on the main central road. This possesses many educational institutions and also an ancient temple said to have been founded so early as 84 B C.

SANITARIA.

Alwaye.—In the early days this place was known to the Portuguese as Fiera'd Alva. It is now a station on the Shorannur Cochin State Railway. It is situated on the banks of the Periyar and is largely frequented as a health resort in the summer months. Five miles from here is the village of *Kaladi*, the birthplace of Sri Sankaracharya.

2. **Muthukuzhi Vayal**.—This is a sanitarium, on an elevation of about 4400 ft. above the sea level. As it is only about 32 miles from Nagercoil, it is easily available to the people of South Travancore and the neighbouring District of Tinnevelly. It is believed, in days of yore, the people dug in this place for pearls and other precious stones—though it is not known how their labours were rewarded. There are several coffee and tea estates in the neighbourhood. The sanitarium cannot however be reached except by a steep bridle path.

3. **Ponmudi**.—This is 38 miles to the north-east of Trivandrum, and is connected with Trivandrum by a good road. The sanitarium is about 3000 feet above sea level. There are a few estates here growing tea, coffee and rubber.

4. **Peermade**.—About 50 miles to the north-east of Kottayam is Peermade, an important sanitarium in Travancore. It is also a centre of coffee, tea and rubber industry. Its elevation is about 4000 feet above sea level.

5. **Munnar** is a hill station about 5000 ft. above sea level. One of the outlet roads leading to the Madura District passes through this. There are many coffee, tea and cardamom estates owned by the Kannan Devan Hills Produce Company Ltd. The produce of these estates is transported to the plains by an aerial ropeway rising to about 4000 ft. This ropeway is worked by a turbine driven by a small stream at the foot of the hills and connects at its upper end with a tramway running about 22 miles from Munnar. In consideration of Government acquiring and handing over, under the Land Acquisition Act, the land required for the rope-way, the company has agreed to the use of the rope-way by the general public on payment of certain fixed charges.

Rules regarding Debenture Bonds.

No. D. L. 475.

REVISED RULES PASSED BY HIS HIGHNESS THE MAHA RAJA OF TRAVANCORE REGARDING THE PAYMENT OF INTEREST TO THE DEBENTURE BOND HOLDERS, THE TRANSFER OF BONDS, ECT., UNDER DATE THE 7TH JULY 1921, CORRESPONDING TO THE 24TH MITHUNAM 1096.

Enfacement for Payment of Interest.

Interest on the Government Debenture bonds of 1091 M. E. is payable at the Treasury at which the bonds have been enfaced for payment. Any holder desiring payment of interest at any other Treasury should therefore apply, along with the bond, to the Financial Secretary to Government either direct or through the Treasury Officer concerned.

2. Financial Secretary will advise the Treasury Officers of the issue of any bonds with interest payable at their Treasuries as also the transfers and cancelments of any such bonds. When the advice is received, the Treasury Officer will make an entry in a register in Form No. A. This advice is independent of the letter forwarding the bond for delivering to the holder.

Payment of Interest.

3. An advice list in Form No. C. of the interest payable to the several holders of bonds from each Treasury, will be furnished half yearly by the Account Officer to the Treasury Officers concerned. The amounts due to the parties will be disbursed by the Treasury Officer on presentation of receipts (Form No. B.) which will be supplied to them on application to the Treasury Officer, the dates of payment being noted in the column provided for the same in Form No. C.

4. The Treasury Officer is not required to inform holders of bonds the due dates on which payment of interest on their bonds may be claimed by them at the Treasury.

Transfer of Bonds.

5. The bonds are not negotiable instrumets; but the property in them may be *transferred* by endorsement. The endorsement should be written in ink and should be in the following form:—

"Transferred to ____________________________

Full name and address ____________________________.

It should be quite clear and distinct and attested by two respectable witnesses whose names and full addresses should also be noted. Vernacular endorsements should be literally translated into English immediately below them. No transfer will be effectual until it shall have been registered in the office of the Financial Secretary to Government to whom the bond duly endorsed as above should be forwarded in registered cover.

Death of Holder.

6. In the event of the death of the holder of a bond, the same will have to be forwarded to the Financial Secretary to Government for issuing a fresh bond in favour of his legal representative. The applicant should send along with the bond a Succession Certificate under Regulation IX of 1090, or any order of a competent Civil Court entitling him to the property in the bond. Interest will thereafter be paid to the legal representative of the deceased in whose favour a fresh bond has been issued.

Exception.—When application is made for the issue of a fresh bond in lieu of one which appears to stand in the name of a deceased member of a Hindu undivided family governed by Mitakshara law or Karanavan of a Malabar Tarwad a fresh bond will not be issued to the applicant unless he furnishes a certificate signed by the Tahsildar of his taluk, after due enquiry, to the effect (i) that the deceased belonged either to a Hindu undivided family under the Mitakshara law or was the Karanavan of a Malabar Tarwad (ii) that the bond formed part of the joint property of the family or tarwad and (iii) that the applicant is the managing or sole surviving member of the family or tarwad. In such cases, the fresh bond will be issued to the legal representative only after he produces an indemnity bond, with two sureties (in Form No. E.) agreeing to indemnify the Government against any loss which may arise thereby. If within two months of the publication in the Gazette of the notification on the matter by the Financial Secretary, rival claimants appear, the fresh bond will be issued only to the party producing an order of a competent Civil Court entitling him thereto.

7. The Treasury Officer should take care that arrears of interest due to deceased bond holders are paid by him to the legal representatives of the deceased, declared entitled thereto by the Financial Secretary to Government.

Payment of Interest to Joint-holders.

8. No payment of interest should be made to one or more of the persons in whose favour a bond has been issued, except upon production, by such one or more persons of written authority from the others, to give a discharge on behalf of them.

Issue of Fresh Bonds.

9. Application should be made to the Financial Secretary for issue of fresh bonds, in the following cases, the bonds also being forwarded to him at the same time.

(a) When all transfer endorsement columns but one on the reverse of a bond have been used up or when anything is written on the bond across any existing endorsement or endorsements;

(b) When the bond is found to be worn or torn or crowded with writing;

(c) When the holder, or any one of the joint-holders of a bond is dead, and application is made by the legal heir or heirs for the issue of a fresh bond;

(d) When the interest on the bond has to be made payable at a Treasury other than the one at which it is enfaced for payment;

(e) When a bond has to be sub-divided into others of smaller denominations;

(f) When two or more bonds standing in the name of the same person or persons have to be consolidated into one or more bonds of larger denominations, bonds being issued only for Rs. 100 or multiples of Rs. 100 ; or

(g) When an endorsement is written across the transfer columns on the reverse of the bond or otherwise than in one of the transfer endorsement cages thereon.

A fee of annas 4 is payable upon each new bond issued.

Register of Powers of Attorney.

10. A Register of Powers of attorney will be maintained in the Account Office in Form No. D and until the cancellation of such authority is brought to the notice of the Account Officer, interest will be advised to be payable only to the person so authorised to receive it.

Issue of Duplicate.

11. When a bond is lost and the holder wants a duplicate, he should advertise the loss of the bond without delay in three successive issues of the Government Gazette and also address the Financial Secretary to Government on the subject, fully detailing the circumstances attending the loss of the Bond and the dates and pages of the Government Gazette, in which the loss has been advertised. A penalty of British Rupee one is levied for the issue of a Duplicate. The amount should be remitted to the Treasury and the Treasury receipt should also accompany the application. The Financial Secretary will issue the duplicate after satisfying himself that the applicant is the registered holder of the bond, and on production, by the applicant of an Indemnity Bond with two sureties (in Form No. F.) against the claims of all persons claiming under the bond reported to be lost.

NOTE:—1. The loss or destruction of a Bond should be notified by the applicant in three successive issues of the Government Gazette, in the form following or as nearly in such form as circumstances permit:—

"Lost" (or "destroyed" as the case may be).

The Travancore Government 5 per cent. NOTE.—2. Purchase and Sale of Bonds.

12. Bonds may be purchased or sold through the Agency of the Financial Secretary and any one wishing to sell or purchase bonds should communicate his desire to him, so that intending buyers and sellers may be brought together. The holder of the bond should furnish particulars regarding the number and value of the bond which he wishes to dispose of, and the minimum rate at which he is prepared to sell it. If the intending buyer is prepared to purchase the bond at the rate fixed by the seller, the Financial Secretary will inform him the amount to be paid by him which will be sufficient to meet the cost and the commission due to the Government. This amount should be paid into the nearest Treasury, and the Treasury receipt should be forwarded to the Financial Secretary, who will then arrange with the seller to transfer the property of the bond to the name of the buyer. The transfer will be registered in the office of the Financial Secretary to Government and the bond will then be forwarded to the buyer. The amount due to the seller, *viz.*, the purchase value of the bond, minus the commission due to the Government will be made payable to the seller from any Treaury in the State.

13. A commission of two annas per cent. is levied on the face value of all bonds purchased or sold through the Financial Secretary.

14. No cancellations, issues, or registration of transfers of bonds will be effected by the Financial Secretary during the 10 days previous to the 1st Chingom and 1st Kumbhom of every Malabar year.

Communications to be addressed to the Honorary Secretary.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHA RAJAH OF TRAVANCORE NO. 2680 DATED THE 18TH SEPTEMBER 1908.

Read again the Revised State Life Insurance Rules, passed with the sanction of His Highness the Maha Rajah under date the 16th August 1906.

ORDER THEREON.

The present rules enforce insurance on all public servants permanently entertained in the service on or after 1st Thye 1073. Several complaints have been received regarding the oppressive way in which the scheme is said to have been working, especially in thecase of the poorer public servants. The scheme *as a compulsory one*, has, in the opinion of Government, been tried long enough and it has been all through unpopular. His Highness' Government consider that it may be well left to each man to decide in what form he should provide for those dear to him, and they resolve to make insurance *optional* hereafter in the case of every public servant, irrespective of the date of his entertainment in the service.

2. There is no provision in the present rules for withdrawal from insurance if the person insured wishes to do so. Some provision for the purpose appears necessary, and Government direct that a provision be inserted in the rules, permitting withdrawal *at any time at the option of the person insured*, the latter being paid back the sum* total of all the premia paid by him up to the date of his withdrawal.

3. Further, the rules now in force do not insist upon medical examination for further insurance. It appears to Government desirable to prescribe such examination for further insurance also, as a person in perfectly good health when first insuring, may fall ill subsequently and his health may be so far impaired as to render him ineligible for further insurance. His Highness' Government therefore direct that, in the cases of all future proposals for further insurance, the proposers should undergo medical examination, before the proposals are taken up for consideration.

4. The State Life Insurance Rules, as now further revised are appended to this order. They will come into force at once.

STATE LIFE INSURANCE.

REVISED STATE LIFE INSURANCE RULES.

In these rules:

(*a*) "Proposer" means the person whose life is proposed to be insured.

(*b*) "Insured" means the person who has insured his life under these rules.

(*c*) "Policy" means the written document containing the contract for the payment under these rules of an endowment bonus in consideration of the premium paid by the Insured.

(*d*) "Pay" means the remuneration paid to an officer in respect of any permanent office held by him in the service of Government, in respect of which office he may become entitled under any rules, which are now or which may hereafter be in force, to a pension, but shall not include any fees accruing to any officer in respect of such office.

* Since reduced to 40 per cent. of the total premia paid.

(e) "Premium" means the periodical payment for any policy.

2. All public servants holding permanent appointments *may* insure their lives under these rules.

Provided that the age of the officer insuring does not exceed 45 years and his salary is not below Rs. 10.

NOTE.—The term 'public servants' as used in these rules, shall also include those persons employed in Municipalities and other local funds whose services are pensionable from the General Revenues.

3. Ten per cent of the pay of the Insured shall be recovered every month as premium and credited to Government from the month following that of his last birthday till the insured shall complete 55 years or in the event of his dying earlier, till his death, in consideration of which a bonus (according to the table appended to these rules) shall be payable from the Government Treasury to the insured or his representative or assignee as the case may be on his completing the age of 55 years or at his death, if earlier. Fractions of a rupee other than half a rupee shall be excluded in calculating the monthly premium.

4. The age of the Proposer shall be taken to be the age at his last birthday

5. Whenever the pay of the Insured is permanently increased, a further insurance *may* be effected for such bonus as will cover the surplus premium available.

6. When an Insured ceases to be in the service of Government before completing the age of 55 years, he may elect either to continue to pay the premium due on his policy till it becomes mature, or withdraw from insurance. Provided however, that dismissed officials, who have been ordered by Government to be included in the list of officers not eligible for re-entertainment in Government service, shall not have the option to continue to pay the premium.

7. * If an Insured wishes to withdraw *at any time* from insurance, he may surrender his policy and apply for the surrender value of the bonus assured thereby, which will be the sum total of all the premia paid by him up to the date of such withdrawal.

8. If an Insured be degraded for any cause, he may either continue to pay the full premium on his Policy or discontinue payment of the difference between such premium and that due on his reduced pay the bonus payable being in the latter case such portion of the original bonus as is proportionate to the premium paid.

9. The business of the State Life Insurance Scheme shall be managed by the Financial Secretary to Government, or any other officer specially authorised in this behalf. The Account portion of the work shall be attended to in the Central Account and Audit Office.

10. The Financial Secretary to Government or other officer specially authorised in this behalf may, with the Dewan's sanction, frame such subsidiary rules for the transaction of business as may be found necessary.

All matters not provided for in these rules and all doubts about the construction or interpretation of the rules shall be placed before the Dewan by the Financial Secretary or other officer aforesaid, and the orders thereon of the Dewan shall be final.

11. All receipts and disbursements on account of the State Life Insurance shall be carried to a separate head of account, and funds belonging to this account shall at the end of each month be invested in such manner as Government may prescribe.

12. A Public servant proposing to insure his life under these rules, shall submit his proposal in Form No. 1 written in his own hand whenever possible, and signed in the presence of his immediate superior who will, in his turn, sign the certificate to the effect that he has read and explained the form to the Proposer whose signature was affixed in his presence, and that the entries

made therein (especially those relating to the age, the date of birth, pay and the date of first permanent appointment in service on Rs. 10 or above of the Proposer) are correct and forward the same in a sealed cover to the head of the department concerned.

13. The head of the department concerned will, after examining the Proposal, forward the same to the Medical Officer who may be appointed by Government in this behalf, requesting him to examine the Proposer and record his opinion regarding his age and health in the certificate appended to the Proposal.

Government may, however in any case, dispense with the medical examination contemplated in the first para of this rule and accept a certificate of health produced by the Proposer from a competent Medical Officer.

NOTE :—The arrangement sanctioned for the medical examination is as follows :—

(*a*) If the proposer's pay is Rs. 20 or less, he shall be examined by a medical officer in independent charge of an institution.

(*b*) If his pay is more than Rs. 20, but not more than Rs. 100, he shall be examined by a medical officer not below the rank of an Assistant Surgeon.

(*c*) If his pay exceeds Rs. 100, the medical examination shall be conducted by a medical officer not below the rank of a Deputy Surgeon.

14. It shall be the duty of the Medical Officer to examine the Proposer and record his remarks on the back of the Proposal and forward the same direct to the Durbar Physician in a sealed cover, after obtaining the signature of the Proposer to the declaration prescribed therein.

15. The Proposal and the Medical report shall then be examined by the Durbar Physician and forwarded to the Financial Secretary or other officer specially authorised in this behalf, with his opinion, which shall be final. The Durbar Physician may, if he deems necessary, call a Medical Board to examine any Proposer before passing his final opinion. In all cases where the Medical Board is convened, the opinion of the majority shall be final. In cases of equality of votes, the Durbar Physician shall have a casting vote.

16. If the Proposer is declared to be fully eligible, the Financial Secretary or other officer aforesaid, shall issue a Policy in Form No. 3 and arrange to give intimation of the acceptance of the Proposal to the Proposer through his immediate superior. If a Proposal is not fully eligible, the age of the Proposer shall be taken to be his age *plus* the years recommended by the Durbar Physician to be added on, and a policy in Form No. 3 A, shall be issued for the amount of the bonus which the age so taken would entitle him to. The difference between the bonus thus entered in the policy and that payable if his age had been accepted without any addition shall however, be divided by the difference between his age and his 55th year, and the quotient shall be annually added to the bonus specified in the Policy until his death, if it happens before his 55th year, and paid along with the said bonus. If he lives to the age of 55, the amount of bonus payable shall be the same as that which would have been payable if his age had been accepted without any addition.

17. The Financial Secretary or other officer specially authorised in this behalf shall forward the policy to the Head of the department in which the Proposer may be employed, or to the Officer in charge of the Treasury from which his pay is disbursed, for delivery to him on payment of the first premium in cash or deduction from his pay. The date of payment of the first premium shall be the date of the policy, and shall be entered therein by the officer realising the premium before delivery.

18. When an Insured wishes to further insure his life, he shall submit a Proposal in Form No. 2. The procedure prescribed in rules 12 to 16 supra shall be applicable to this further insurance.

19. On an Insured completing the age of 55 years, the sum assured by his Policy less the amount (if any) on account of arrears of premia, will be paid

to him or to his assignee, after the surrender of his policy, and on the production of a certificate of identity; but if he dies before completing the age of 55 years, the amount due will, on the production of satisfactory evidence of death and of the claim to the bonus and on the surrender of the policy, be paid to his legal representative or assignee. If there be doubt or dispute as to the person entitled to receive the bonus it shall be paid after production of satisfactory proof of the claimant's right.

20. ‡ The premia shall be payable in advance and be recovered monthly by deduction from the pay of the Insured.

21. ‡ When an Insured is absent from duty on leave with allowances, the premium shall be realised when such leave allowances are drawn. If he should obtain leave without allowances or be suspended from service, the past premium, if not otherwise recovered, shall be a debt on his policy carrying interest at 4 per cent per annum, and shall be recovered as arrears from his future pay, if any, in instalments not exceeding 10 per cent of such pay, in addition to the current premium.

22. ‡ When an Insured who has ceased to be in the service of Government has elected to continue to pay premium till his policy matures, he may be allowed by the Financial Secretary or other officer specially authorised in this behalf, to pay such premium in advance monthly, quarterly, half-yearly or yearly into any Government Treasury. Fifteen days' grace shall be allowed when the premium is payable monthly and a grace of one month when it is paid otherwise. If the Insured fails to pay the premium within the days of grace he shall be deemed to have withdrawn under rule 7 and he shall be paid back the surrender value of the bonus assured which will be the sum total of all the premia paid by him up to date.

23. Every Insured shall be supplied with a Premium Receipt-book (Form No. 4) in which payment of each premium shall be acknowledged by the Officer realising the same.

If an Insured should apply for the issue of a duplicate of the Premium Receipt-book, because the original is lost or damaged, the same shall be issued to him by the Financial Secretary or other officer specially authorised in this behalf, on his paying a fee of Re. one.

24. If an Insured should apply for the issue of a duplicate of the policy, because the original is lost or damaged the same shall be issued to him by the Financial Secretary or other officer specially authorised in this behalf on his paying a fee of one Rupee.

25. False information furnished by an Insured or production by him of any false evidence in connection with the insurance of his life, shall render his policy null and void, and the premia paid by him shall be forfeited to Government.

26. Government reserve to themselves the right to add to, or modify or altogether cancel, these rules in regard to all *future* applicants.

27. These rules do not apply in respect of appointments, service in which does not count towards pension under the pension rules.

28. These revised Rules shall come into force at once.

Object.

1. The object of the Government in establishing Savings Bank is to provide a ready means for the deposit of savings and to encourage thrift.

Definitions.

2. For the purpose of these rules :—

Deposit means money paid into an Anchal Savings Bank by or on behalf of, a depositor.

Depositor means the person by whom, or on whose behalf, money is deposited.

Account means the account of depositor in an Anchal Savings Bank.

Balance means the balance at credit of an account.

Minor means a person who has not completed the age of 18 years.

Guardian includes in a Makkathayam or Marumakkathayam family the father or karanavan as the case may be and if the father or karanavan be dead, the mother, or if the mother be also dead and no guardian of the minor has been appointed by Will or Deed, or under Regulation II of 1077, any adult relation of the minor with whom the minor is residing, or by whom he is being maintained. It also includes the father of a minor of Marumakkathayam family if the deposits are made by the father on behalf of the minor children.

Limitations as to opening Accounts and Deposits.

3. Any person, male or female, who is not a minor, may deposit money in an Anchal Savings Bank, (*a*) on his or her own behalf or (*b*) on behalf of any minor relative, or (*c*) on behalf of any minor of whom he or she is the guardian.

4. No person may have more than one account opened in his or her own name. In addition to the account which a person may open in his own name, he may open any number of separate accounts on behalf of any minors who are related to him or of whom he is the guardian, provided he shall not open more than one such account on behalf of each such minor. A married woman may open a separate account from that of her husband, provided the money to be deposited by her is her own property or earning, or is at her disposal. A depositor who has an account in the Treasury savings Bank may open another account in addition in the Anchal Savings Bank and *vice versa*.

5. Deposits in trust are not allowed and cannot be recognised, Exception is however made in the case of Public accounts when the amounts of such deposits are less than Rs. 100.

5 A. Money cannot be deposited in the name of two or more persons jointly, provided that nothing in this rule shall prevent the deposits of money in the name of a known Firm.

6. The smallest sum of money that can be deposited at any time is one fourth of a rupee and no sum can be deposited that includes a smaller fraction.

7. The total amount *which may be deposited* in any one official year from 1st Chingom to the end of Karkadagam *after deducing the amounts withdrawn during the year* may not exceed Rs. 2000 (two thousand), i. e., no deposit shall be received which has the effect of raising the depositor's balance, exclusive of interest credited in the current year to a figure more than Rs. 2,000 in excess of the balance, at his credit on 1st Chingam last.

The total amount which a depositor may have at any time at his credit, exclusive of interest of the current year shall not exceed Rs. 10,000 (ten thousand).

Powers to withdraw Money and Limitations as to Withdrawals.

8. A depositor may withdraw money from his account only once in a week, reckoning it from Sunday to Saturday. Money deposited on behalf of a minor may only be withdrawn, during his or her minority by the guardian. Women, whether married or single, may withdraw money deposited by them in their own names.

9. A depositor may not withdraw a smaller sum than one fourth of a rupee and he may not withdraw any sum which includes a small fraction unless it be to close his account in which case he may withdraw the whole balance at his credit.

How to open an Account.

10. Any person wishing to open an account should apply, in form No. A to the nearest S. B. Anchal Office stating his name, occupation or profession, father's or karanavan's name, caste and place of residence.

The application need not necessarily be made in person.

11. The intending depositor may sign a declaration in Form No. B that he has read and accepted the Savings Bank Rules. If he be unable to write, he must attend personally and affix his mark or seal to the declaration, which must be attested by the signature of a witness. If he should apply in person, a copy of these rules will be given to him to read or they will be read and explained to him, should he be unable to read. If he should not apply in person, a copy of these rules with the form of declaration will be sent to him and he must present the declaration duly signed.

12. When the declaration is presented, duly signed with the amount of the first deposit, the deposit will be entered in a passbook, Form No. C, which will be supplied to the depositor and the entry in which will be signed by the Anchal Master and stamped with the Anchal Office stamp.

13. The depositor will be required to sign a receipt for the pass-book in a Book of signatures, Form No. D. which will be kept in the Anchal Office. The signatures should be carefully made, as they will be preserved as specimens for the future guidance of the Savings Bank.

When the depositor does not himself attend at the Anchal Office, his signature should be obtained on the printed slip (Form No. 1) duly attested by a trustworthy witness known to the Anchal Master in cases in which such attestation is deemed, by the Anchal Master, necessary.

Pass-Book.

14. The pass-book of a depositor will show, in the vernacular of the place or in English, as the depositor may wish, the number of his account, the name of the Anchal Office from which the pass-book is issued, his own name, occupation or profession and address. No deposit can be made and no money can be withdrawn from an account without its production. The Anchal Office will not be responsible for any sum not acknowledged in the pass-book, nor for any loss caused to a depositor, if any person obtain possession of the book and obtain payment of any sum belonging to the depositor.

15. No charge will be made for the pass-book, first supplied to a depositor, or for any book issued to him in continuation of the original book, which latter will thereupon be retained by the Anchal Office. But if a pass-book be lost or

spoiled, (except under circumstances over which the depositor has no control) or if any account be re-opened, with the permission of the Account Officer, under rule, 34) before the expiry of three months from the date of closure the depositor will have to pay half a rupee for a fresh book.

16. A depositor may deposit money at the Anchal Office at which his account stands, as often as he wishes, so long as the perscribed limit is not exceeded. All that he is required to do is to take or send the amount of a deposit with the pass-book and see that the amount is entered in the pass-book and the balance struck and signed by the Anchal Master and stamped with the date.

Mode of withdrawing Money.

17. When a depositor wishes to withdraw money, he must present his pass-book at the Anchal Office at which his account stands, with the application for withdrawal, Form No. E, (which can be had at the Anchal Office), signed by himself and showing the balance to his credit and the amount which he wishes to withdraw. If the pass-book and the application for withdrawal are presented by an agent, the name and signature of the agent should be entered in the application for withdrawal before it leaves the depositor's custody, and in any case, the entries must be made before the application is presented at the Anchal Office.

18. If the depositor is unable to write, he must attend personally and affix his mark or seal to the application. Should he be absolutely unable to attend personally, he must have his mark or seal affixed to his application and attested by some respectable witness, and the Anchal Master will then make payment to the person presenting this application with the pass-book, after satisfying himself, by such enquiry as he may think proper, of the inability of the depositor to attend and of the genuine character of the application. The mark or seal of a depositor or messenger who cannot write must, at the time that he receives payment of withdrawal, be attested by the signature of a respectable witness (other than the paying officer), who is personally acquainted with the depositor or messenger as the case may be and also known to the Anchal Master or some member of the Anchal Office. If a depositor desires to withdraw the whole of the balance shown to his credit in his pass-book he will be required to close his account.

19. In the case of withdrawals made from accounts opened on behalf of minors, the father, karanavan or other guardian of the minor must sign the following certificate on the application for withdrawal:—

"Certified that the amount sought to be withdrawn is required for the use of the minor."

20. Should any person other than the father or karanavan, or if the father be dead, other than the mother, wish to withdraw money from an account opened on behalf of a minor, and claim to do so as guardian of such minor, he or she will be required to answer the following questions and such other questions as may be considered necessary, and will be allowed to withdraw money only on the order of the Account Officer in accordance with rule 38.

(*a*) What is the relationship to the minor?

(*b*) Is the father, mother or karanavan of the minor dead or are both parents and the karanavan dead? What near relative of the minor is alive?

(*c*) Have you been appointed guardian of the minor by will or deed or under any Regulation in force in Travancore?

NOTE—If the reply to this question is in the affirmative, the applicant must produce the document on which he or she relies to support his or her claim.

(*d*) Does the minor reside with you or is the minor maintained by you?

21. (i) The amount to be withdrawn will be entered in the pass-book and a fresh balance struck as in the case of a deposit under the signature of the

Anchal Master and with the date stamp of the Anchal Office. The amount will then be paid to the depositor or to the person presenting the pass-book and application, and his receipt taken in all cases without a receipt stamp, under the payment order.

(ii) The payment of a withdrawal at an Anchal Office is subject to the condition that funds are available in the Office. If funds are not available they will be obtained as soon as possible. In such a case the depositor will be informed of the date on which he should come to the Anchal office to receive payment, and he will retain the pass-book. The amount will be paid on presentation of the pass-book on the date mentioned or any subsequent date within one week from that date.

Interest.

22. Interest will be allowed, until further notice, at the rate of 3 cash per mensem, for every two rupees. This interest will be allowed for each month on the lowest balance at credit of an account between the close of the sixth day and the end of the month.

NOTE: No interest will be allowed for any month on an account, opened after the sixth day of that month.

23. When an order has been issued to close an account, interest will cease to accrue from the first day of the month in which the order is issued.

24. Interest on the account of a deceased depositor will cease to accrue from the first day of the month in which notice is issued to person or persons recognised by the Government as entitled to receive the balance of the account.

NOTE. The notice shall be issued by the Account Office, for which purpose the Anchal Master shall intimate the death of any depositor to that office, with the name or names of the legal heirs of the deceased and their addresses.

25. The interest calculated as above on the lowest balance for each month will be added each year to the balance of each account.

26. Depositors should present their pass-books, as soon as possible after the end of the year, in order that the necessary entries may be made in them, and should receive an acknowledgment in Form No F, if the pass-book is not returned then and there.

27. No balance will be struck in the pass-book after the end of Karkatakam until interest has been added for the past year.

Transfer of Accounts.

28. A depositor may have his account transferred, free of charge, *to any* Anchal Office, that is a Savings Bank, provided that the account shall have been in existence for three months previous to the transfer. If he should wish to transfer his account, he must present his pass-book personally or send it to the Anchal Office and must, in either case, make a written application for transfer in Form No. G. The pass-book will be returned to the depositor, who should present it as soon as possible at the new Anchal Office to which his account has been transferred, with the specimen of his signature.

29. Accounts cannot be transferred from one Anchal Office to another in the month of Karkatakam, nor can accounts ordered to be closed be transferred.

NOTE. No account can be transferred after the death of a depositor.

Closing of Accounts.

30. When a depositor wishes to close his account he must present his pass-book, with a form of application for withdrawal. The amount of interest as per rule 22 will be entered in the Pass-book and a final balance struck in the Account Office. The amount will then be paid to the depositor and his receipt taken in the pass-book, which will be returned by the Anchal Office to the Account Office.

31. An account may be closed within the week in which a withdrawal has been made.

32. If an order to close an account has been issued under these rules, notice in writing will be sent to the depositor requiring him to present his pass-book. After the date of such notice, no deposit will be accepted in the account and no interest will be allowed on the balance after the end of the calendar month preceding such date.

33. An account open on behalf of a minor must, if still open, be closed by him on his attaining the age of 18 years. Interest on an account opened on behalf of a minor will cease to accrue from the first day of the month after that in which the minor attains the age of 18 years.

Re-opening an Account.

34. A depositor who has once closed an account cannot open another account until after the expiration of a month from the date of closure without the permission of the Account Officer and a depositor whose account has been closed by order cannot open a fresh account in any case without the permission of the authority which ordered it to be closed.

Dead Account.

35. Accounts in respe t of which no transactions have taken place for the periods specified below will be treated as "Dead", and no subsequent deposit or withdrawal will be allowed in the case of such accounts without the previous orders of the Account Office.

When the balance of the account			and when no transaction takes place for
Does not exceed	..	Rs. 10	2 complete years
Exceeds Rs. 10 but does not exceed	..	Rs. 100	4 Do.
Exceeds	..	Rs. 100	6 Do.

NOTE.—1. "Transaction" in this rule means not only a deposit or withdrawal but also the presentation of the pass-book for the entry of interest.

2. A dead account does not lapse to the Government but it may be re-opened at any time on the application of the depositor and the interest that has accumulated will be added to the principal when the account is renewed.

Successions and Guardianship.

36. If a depositor should die, leaving a balance in a Savings Bank, and if a certificate under Regulation IX of 1090 be not produced within three months of his death, the Account Officer may pay the said balance to any person appearing to be entitled to receive it.

37. If any depositor become insane or otherwise incapable of managing his affairs, and if such insanity or incapacity be proved to the satisfaction of the Account Officer, he may, from time to time, make payment out of the deposits to any proper person. When a committee or manager has been duly appointed to administer the depositors' estate, nothing in this rule authorizes payments to any person other than the committee or manager.

38. When any person other than the father, mother or karanavan claims to withdraw money from an account opened on behalf of a minor, as being the guardian of such minor, the Account officer may authorise the applicant to withdraw money from the account for the minor's use under the following conditions:—

(a) Where the applicant claims to be a guardian under the law, on production of proof of the claim;

(b) Where the applicant claims as guardian appointed by will or deed, on production of the documents in support;

(c) In other cases, the applicant may be required to produce a certificate under Regulation IX of 1090 before payment is made to him.

Public Account.

39. The following rules govern the opening of "Public Accounts" and their transactions:—

(*a*) Accounts may be opened by the Secretaries, Treasurers, or Managers of the Funds of any Dispensary, Devaswom, or other Religious Institution School, Orphanage, Asylum or Library, or of any other Fund contributed for purposes other than the personal advantage of the contributors. Race, Racquet Billiard, Mess and similar Funds, the objects of which are of a private or personal nature, cannot be allowed accounts.

(*b*) Secretaries, Treasurers, or Managers of Societies registered under the Travancore Companies Regulation I of 1092, may be allowed accounts.

(*c*) Secretaries and managers of Benevolent Funds (that is, Funds formed by mutual subscription as an insurance against domestic misfortune) may be allowed accounts.

(*d*) Officers of Government or of public institutions, such as Railway and Steamer Companies, and the like, who collect subscriptions, voluntary or departmental, from their subordinates for departmental purposes, may be allowed accounts.

40. Public accounts of the kind specified above must be designated by names indicating the object to which the money is devoted,—as Dispensary Fund, Battalion Kit-money Fund, Reformatory Mark-money Fund, etc.

41. Information must also be given in writing regarding the object and source of income of the Fund.

42. Each new public account must be authorised by the Account Officer *before* it is opened.

43. The Account Officer is empowered to direct that a public account be closed, should its object be such that the account could not, under the rules, be opened as such.

44. In every case in which the holder of a public account, other than a public account held by an officer of Government in his official capacity, is changed, a fresh declaration (*vide* rule 11) must be filled up.

45. The limitations laid down in rule 4 are not meant to prevent any person from opening more than one *ex-officio* or public account.

46. Public accounts may stand in the names of two or more persons jointly.

47. The limit of Rs. 10,000 for deposits (Rule 7) as well as for calculation of interest (Rule 22), does not apply to public accounts. But no public accounts may have at any time more than Rs. 20,000 at its credit, exclusive of interest for the current year; and no interest will be credited on any sum in excess of Rs. 20,000.

47. The restrictions laid down in rules 6 and 9 in regard to the amounts of deposits and withdrawals do not apply to Public accounts.

48. In the form of declaration referred to in rule 11, which every depositor must sign, the words "I declare also that there is no account at any other Anchal Savings Bank in my own (or in the minor's) name" should be scored through, in the case of a public account.

49. No account may be allowed for money,

(i) which is the property of the Government, or

(ii) which has been received for credit of the Government, or

(iii) which has been drawn from the Treasury for expenditure on account of the Government, or

(iv) which is raised by taxation, either local or municipal

(v) which is collected or received or held in trust by any public officer or court, in accordance with any law, provided that the money is the property of the Government.

NOTE.—Nothing in these rules prevents the opening of an account for a Judicial deposit, in accordance with a special order passed by a Court of Law

in a particular case, directing the investment of the money in the Anchal Savings Bank. Such an account, when admitted, is subject, in every respect, to the rules and limitations which govern ordinary private accounts.

Security Deposit Accounts.

50. The following special conditions govern the opening of security deposit accounts and their transactions:

(*a*) Government servants, servants of Town Improvement Committees and contractors who are required to deposit security may be allowed separate accounts for the security deposit only.

(*b*) The restrictions laid down in rule 7, in regard to the maximum limits for each separate account and those laid down in rules 6 and 9 in regard to the amounts of deposits and withdrawals, do not apply to security deposits.

(*d*) A security deposit may be opened in the joint names of the persons undertaking the same work or contract.

(*e*) A person undertaking more than one work or contract at the same time may be allowed a separate account in respect of each.

(*f*) The depositor will be required to sign a declaration, in Form No. H., undertaking not to make any claim on the Savings Bank for the principal of the sum deposited or any interest thereon except with the express written sanction of the officer to whom the security is pledged, not to object to the payment by the Bank of the whole or part of the principal or interest to such officer on his claiming it and not to make any claim for interest from the date on which interest has ceased to accrue owing to the payment of the principal to such person or from the date on which such person has sanctioned the re-payment of the deposit.

(*g*) The personal attendance of persons, furnishing security deposits, need not be insisted on for signing the Book of Signatures (Rule 13). A specimen signature, duly attested by the Head of the Department concerned or by a Magistrate, may be obtained, and filed in the Book of Signatures.

(*h*) The prohibition against the transfer of an account until it has been in existence for three months (Rule 28) does not apply to security deposit accounts which may be transferred, on the requisition, accompanied by the pass books, of the officers to whom the accounts are pledged.

ABBREVIATED ADDRESSES.

The addressee's name and address may be written in an abbreviated form, but the right of an addressee to have a telegram thus addressed delivered to him, is subject to an arrangement made between such addressee and the Telegraph Office which has to deliver the telegram. Abbreviated addresses may be registered under the following conditions:—

(1) Application for the registration of such addresses should be made to the officer in charge of the Telegraph Office, at which it is proposed to register an address. The Telegraph Department cannot arrange for registration of an address at any place in a foreign country.

(2) No address may consist of more than one word, in addition to the name of the town where registration is effected.

(3) The word should contain not more than ten letters, and should be easy to read and easy to telegraph. Proper names can only in rare cases be accepted, and in no case can a proper name be registered for a person of a different name.

(4) The names of professions, trades, countries, states, towns, telegraph stations, well-known states and registered newspapers may not be used as registered addresses.

(5) Numbers may not be registered.

(6) To prevent inconvenience to the public, the Telegram Department has to reject words which either in writing or in telegraph symbols so closely resemble other registered words as to be liable to be mistaken for them. It is desirable, therefore, that any application should not merely offer one word for acceptance but should give several words from which a selection may be made.

(7) No address may be registered in one town for the delivery of telegrams in another town.

(8) A registered address is available for telegrams from other countries as well as for Inland telegrams.

(9) The Telegraph Department reserves to itself the right to cancel an address. In such a case a part of the registration fee proportionate to the unexpired period, is returned, or a new address may be substituted free of charge for the one cancelled.

(10) In the event of a change in the title of a firm for which an address is recorded, the consent, in writing, of all the partners of the firm must be produced before the records can be altered.

(11) The fee for registration of an abbreviated address, which should be paid to the officer in charge of the Telegraph Office at which registration is effected, is Rs. 10 yearly, or Rs. 5 half-yearly payable in advance. When, however, a number of abbreviated addresses are registered by a single firm either at the same Telegraph Office or at different Telegraph Offices, * the fee for registration is:—

For the first ten abbreviated addresses . . Rs. 10 each
For the second ten abbreviated addresses . Rs. 5 ,,
For each subsequent abbreviated address . Rs. 3 ,,

(12) An additional fee, equal to half the registration fee, is charged for every change of the word selected, or for every transfer to another Telegraph Office within the period of registration, but not for change of residence within the delivery limits of the registering office, or for change of name, or title of firm or person, so long as the identity is the same (see condition, 10), and it is not a case of transfer from one firm to another; if it is a case of transfer the full fees are charged.†

(13) The Telegraph Department accepts no responsibility in respect of the delivery of any telegram having an abbreviated address if such address has not been registered, or for delay in delivering such telegram. Registration is essential in all cases of persons who frequently receive telegrams addressed to them by an abbreviated name, and Telegraph officials can decline to deliver such telegrams if, after notice has been given, the address has not been registered.

BRITISH INDIA STEAM NAVIGATION COMPANY (Ltd.)

COLACHEL, AGENTS, MADURA CO., Ltd.

Throughout the year, including the period of the South West-Monsoon, provided the sea is not too rough for boats to work, the coasting steamers of the Company call at Colachel provided sufficient inducement offers.

Cargo can be booked through, via Bombay, or Colombo to London, Liverpool and also to the chief American, Australian and European ports.

Residents in Travancore and South Travancore desirous of importing any goods from the United Kingdom or the Continent should instruct their friends at Home to ask for, and procure, a through Bill of Lading to Colachel, optional port Alleppey, (transhipment at Colombo or Bombay) and to confine their booking as far as possible entirely to the British India Steamers from Home, as this procedure saves consignees from having to pay transhipment and other agency

charges in Colombo or Bombay which are heavy and always incurred when goods destined for Colachel arrive in Colombo or Bombay by steamers other than those of British India line, unless they happen to be on a through Bill of Lading. There are no direct steamers from Europe to Colachel, so all goods must be transhipped at Colombo or Bombay.

Consignees are strongly advised to arrange their shipments from Europe so that they may arrive at Colachel in the fine weather season viz., October to May inclusive. There is then little risk of overcarriage owing to rough sea preventing boats at Colachel working, and boat hire charges are less during these months than in the Monsoon months of June to September.

Passengers can be booked to the following ports at the following rates :—

No. S. R. 2295. NOTIFICATION.

Under sanction of His Highness the Maha Raja, the following revised rules are passed for regulating the export of goods once imported into, and the import of goods once exported from Travancore permitted under para 2 of the Proceedings of the Government No. S. R. 221, dated the 26th September 1910, as modified by the Proceedings of the Government No. S. R. 2126, dated the 6th September 1912.

These rules shall apply only to the Customs houses mentioned below:—
The Arukutty Customs house.
The Sea Customs houses at Alleppey, Quilon, Trivandrum and Colachel.
The Railway Customs house at Quilon, and the Aramboly Customs house.

A. The export of goods which had been previously imported.

1. The owner of the goods should, at the time of the import, make a declaration, in such form as the Excise Commissioner may prescribe, and present the same to the officer in charge of the Customs house through which the goods are imported, for the grant of a certificate to enable him to export the goods free of duty, later on, through one of the Customs houses mentioned above.

2. On receipt of such declaration and on production of the goods mentioned therein, the officer in charge of the Customs house through which the import is made shall weigh the entire consignment and enter in a register, to be specially kept for the purpose, the results of the weighment, the description of the goods, the number of packages, the name of the importer, the date of the import and the Customs house through which the goods are intended later on to be exported.

3. The officer in charge of the Customs house through which the import is made shall grant a certificate to the importer, in such form as may be prescribed by the Excise Commissioner. The Certificate so granted shall be in force only for a period of six months from the date of issue.

4. The officer in charge of the Customs house through which the import is made shall forward the duplicate of the certificate to the officer in charge of the Customs house through which the goods are intended to be exported, while the original declaration made by the owner of the goods at the time of the import shall be sent to the officer in charge of the circle into which the import is made.

5. The owner of the goods shall present to the officer in charge of the Customs house through which the goods are to be exported, the original certificate granted by the officer in charge of the Customs house of import. On receipt of such certificate, and on production of the goods, the former officer shall satisfy himself that the goods produced for export are equal in weight or number to those described in the duplicate certificate received from the officer in charge of the Customs house of import, and that the property in the goods has continued with the person by whom or on whose account they had been imported.

6. The officer in charge of the Customs house of export shall then re-weigh the entire consignment and enter the results of such re-weighment in a register kept for the purpose. If no difference is observed between the results of the original weighment as given in the duplicate certificate and the results of the re-weighment, the goods shall be passed free of duty.

7. All cases in which there are reasonable grounds for doubting the continuity of the ownership in the goods shall be reported for the orders of the officer in charge of the circle.

8. In cases where the results of the original weighment and the re-weighment show any difference, the officer in charge of the Customs house of export shall adopt the following procedure: —

(*a*) If the re-weighment shows an increase, not exceeding 10 o/o of the original weight, the quantity found in excess shall be assessed to duty and passed, while the quantity which is equivalent to the original weight shall be passed free of duty.

(*b*) If the re-weighment shows a decrease, not exceeding 10 o/o of the original weight, the goods shall be passed free of duty.

(*c*) In all other cases, the goods shall be detained and the fact reported for the orders of the officer in charge of the circle.

9. Whenever goods are passed under Rule 6, or under clause (*a*) or (*b*) of Rule 8, the officer in charge of the Customs house of export, passing the goods, shall forward the original certificate delivered by the owner of the goods, after entering therein the quantity passed free of duty and the quantity assessed to duty, if any, to the officer in charge of the Customs house through which the import had been made. The latter officer shall, on receipt of the certificate, affix it to its counterfoil.

10. In case where the goods are intended to be exported through the Customs house through which they had been previously imported, the officer in charge of the Customs house shall forward to the officer in charge of the Circle the declaration made by the owner of the goods as well as the duplicate of the certificate granted to him. On production of the goods and of the original certificate at the time of the export, the officer in charge of the Customs house shall act in accordance with Rules 5, 6, 7, 8, and 9 in so far as they are applicable to him.

B. The import of goods which had been previously exported.

1. The concession granted in regard to the refund of seven-eighths of the export duty levied on goods previously exported, and brought back into Travancore within six months from the date of the original exportation, shall apply only to cases where the export and the import take place through the same Customs house.

2. Owners of goods who import them into Travancore within six months from the date of their previous export and who claim the refund of seven-eighths of the export duty levied at the time of the original exportation, shall produce with the goods an application for such refund, together with the original receipts granted to them in respect of the levy of such duty.

3. The officer in charge of the Customs house before whom the goods and the receipts are produced shall satisfy himself that the goods are equal in weight or number to those described in such receipts and that the property in them has continued with the person by whom or on whose account the goods had been previously exported.

4. He shall then weigh the entire consignment, and after comparing the results with the original receipt produced by the owner of the goods as well as with the entries in the Nalvazhi made on the date of export, he shall forward a report to the officer in charge of the circle.

5. On receipt of such report, the officer in charge of the circle shall, after satisfying himself as to the weight or number of the goods and the continuity of the property in them, report the case, with his opinion thereon, for the orders of the Excise Commissioner. Such report shall be accompanied by:—

(*a*) The original receipt produced by the owner of the goods, and

(*b*) the duplicate receipt, the original and the duplicate manifests, as well as the copy of the Nalvazhi received and recorded in his office soon after the original export.

6. On receipt of such report from the officer in charge of the circle, the Excise Commissioner shall, in case he is satisfied that the refund is allowable, order such refund.

No. J. 3734.

Rules under Sections 4, 5, 6, 7 and 8 of the Weights and Measures Regulation VI of 1085, made by the Government of His Highness the Maharajah of Travancore under date the 10th June 1912/28th Edavom 1087.

I. STANDARDS.

1. The primary standards of weights and of measures of length and of capacity prescribed in Section 2 of the Regulation, are given below.

(1) The primary standard of weight is the "Tola," equivalent to 180 grains Troy or one British Indian rupee.

(2) The Primary standard for measures of length is the "Yard" equal in length to the standard yard of British India.

(3) The primary standard for measures of capacity is the "Edangali," equal to 80 cubic inches of water.

2. The orginals of the above said primary standards of weights and measures shall be in the custody of the Chief Engineer at Trivandrum.

3. The aforesaid originals of the primary standards of weights and measures shall bear, besides the impression of His Highness the Maharajah's Coat of Arms, the inscription:—

(1) 1 Tola............Standard weight.......Travancore State;
(2) 1 Yard.........Standard measure of length.........Travancore State;
(3) 1 Edangali.........Standard measure of capacity.........Travancore State.

4. The units of weights and of measures of length and of capacity are, as prescribed in Section 3 of the Regulation, for weights, the said Tola; for measures of length, the said Yard; and for measures of capaciiy, the said Edangali.

5. All weights and measures forming integral multiples or integral sub-multiples of the above units of weights and measures, are authorized sets of weights and measures, as laid down in Section 3 of the Regulation.

6. The weights and measures described in Schedule II hereto appended, or that may hereafter be so declared, shall, under Section 4 of the Regulation, be authorized sets of weights and measures, though they do not form integral multiples or integral sub-multiples of the units of weights and measures aforesaid.

7. No weights, measures, weighing machines or balances, not authorized or certified under the provisions of this notification, shall after the 16th November, 1913 be used in any dealing or contract that is, had or made and has its operation within the Travancore State. Any person acting in contravention of this Notification, shall be liable to punishment, as provided in Section 10 of the Regulation.

II. WARDENS.

8. All taluk Tahsildars and Deputy Tahsildars and the Treasury Officer and the Deputy Tahsildar, Alleppey Major Treasury, shall be supplied by the Chief Engineer with certified copies of the primary standards and also with sets of authorized weights and measures, and balances, for purposes of testing and stamping under the provisions of this Notification and the said officers shall be ex-officio Wardens for the said certified copies and the said sets of weights and measures and balances. In regard to liquid measures, the copies and sets to be supplied by the Chief Engineer should be of the description of the "special vessels" referred to in clause (5) of Rule 21 *infra*.

9. Besides the standards and sets of weights and measures and balances supplied under the preceding Rule, the Wardens shall also be supplied by the Chief Engineer with dyes for stamping weights and measures in the manner hereinafter described.

10. All officers of the Government who have to use weights and measures in the discharge of their duties, all managers of companies, and all persons engaged in business or trade, shall submit, for verification to the Warden within whose local limits the head-quarters of the officer concerned is situate, or the business or trade is conducted, the weights, weighing machines, and balances and measures used by them in their dealings, at least once in two years, and pay, for such verification, the fees prescribed hereunder.

11. The Warden shall, on payment of the regulated fess, verify, and shall, if requested so to do, correct, all weights, weighing machines and measures, purporting to be weights and measures authorized under this Notification, and all balances, which are brought to him for verification or correction and which appear to him fit for verification or correction. When such weights, weighing machines, measures and balances are found or made correct, and are in conformity with the requirements of this Notification, he shall certify to the correctness and conformity, by stamping, engraving or branding them with the proper mark in the manner hereinafter described.

12. The Warden may, as mentioned in Section 8 of the Regulation, deface, or render incapable of use, or refuse to verify, correct or mark anything so brought which appears to him unfit for verification or correction.

13. The work of testing and stamping weights and measures shall be done under the supervision of the Wardens by such establishments as may be appointed for the purpose.

14. There shall be appointed, for duty under each Warden such establishment as the Government may, from time to time decide, and the charges on account of such establishment shall be met from the fees collected under the provisions of this Notification.

III. Instructions for testing and stamping Weights and Measures.

15. The object of stamping weights and measures being to induce the recognition of the established standards, no weights and measures not being multiples or fractions of the authorized standards as described in Rule 5, or not being authorised sets of weights and measures as described in Rule 6, shall be passed by the Warden.

16. Only metal weights and measures shall ordinarily be stamped; but where wooden measures are largely in use, they may also be stamped. Every endeavour should, however, be made to induce merchants and others to adopt metal measures in lieu of wooden ones.

A. Testing of weights.

17. The balances supplied to the Wardens being true and sensible, no necessity arises for trying them as to their accuracy before they are used for the verification of weights brought to the Wardens for being stamped. When, however, weights have to be verified by standard weights and only common scales or balances are available, the first thing to be done is to try the balance as to its degree of sensibility (apart from the question of its equilibrium) in the manner hereinafter indicated.

18. Balance brought for verification should be tested as to their accuracy in the manner hereinafter set forth.

The requisites of a good balance are,--

(1) It should be true, *i. e.*, when loaded with equal weights, the beam should be horizontal. This requisite is obtained by making the scale-pans of equal weights and the two arms exactly similar in every respect. The truth of a balance may be easily tested by interchanging the weights which keep the beam in equilibrium, when horizontal; if the beam settles again into a horizontal position, the weights are equal and the balance true but not otherwise.

(2) A balance should be sensitive, *i. e.*, when the weights differ by a small quantity, the deviation of the beam from the horizontal should be easily perceptible. If a beam does not turn with 1,500 part of the weight that may be in one scale, it cannot be used for very accurate purposes.

(3) A good balance should be stable, *i. e.*, it should readily return to its position of equilibrium when moved from it, *i. e.*, its time of oscillation about its position of equilibrium should be small. If the sensitiveness of a balance be very great the addition of a small weight to either scale will cause the beam to oscillate and some time will elapse before it attains its position of equilibrium, on this account, the beam is sometimes furnished with a pointer and a graduated arc of a circle. If the pointer oscillates through equal arcs on opposite sides of the point which corresponds to horizontality, the scales may be considered to be equally loaded, without waiting to ascertain whether the beam will ultimately rest in a horizontal position.

Balances used for weighing medicines, gold, diamonds and other precious stones should undergo rigid test as to their sensibility.

19. Besides the common balance, weighing machines called steel-yards or Veliikoles, in which one and the same weights made use of in all cases, are also used.

The most commonly used form of Vellikole corresponds to what is called the Danish Steel-yard, in which the weight is fixed to one end of the beam and the fulcrum is moveable, the thing to be weighed being suspended at the other end of the beam. The beam of the Steel-yard is graduated to denote the point where the fulcrun should be when there is a weight in the scale-pan equal to the weight marked at the point.

Steel-yards brought for verification should be tested as to the accuracy of the graduations.

20. Weights received for verification should be examined thus :—

Suppose a weight purporting to correspond to the standard tola is brought for verification. Place the standard weight in the right-hand scale and exactly counterbalance it, then take it out and put in its place the weight to be verified. If the beams show an equipoise the weight is correct. It is of no consequence whether the arms of the beam be equal or not, or, in other words, whether the scales are or are not correct.

B. Testing of Measures of Capacity, i. e., Dry and Liquid Measures.

21. (*a*) The first thing to be done in the case of dry measures is to measure the diameter carefully. If the diameter of the measure is exactly the same as that of any of the authorized measures under Rules 5 and 6 the measure may be accepted for testing. If not, the measure should be rejected, differences in shape are liable to cause variations in the contents of things which do not fill all space.

NOTE :—If a measure is not quite round, the mean between the longest and shortest diameters should be taken as the diameter of the measure.

"(*b*) All dry measures shall be used struck and not heaped. The standard dimensions of the authorized dry measures shall be as follows :—

Measures.	Diameter in inch.		Height in inches.
Para	8 5/8	...	13 11/16
Edangali	4		6 3/8
Irunali	3 1/6	...	5 7/32
Nali	2 1/2	...	4 1/16
Uri	2	...	3 3/16
Ozhaku	1 5/8	...	2 7/16
The Nanjanad Marakal	6 1/8		10 11/32
.. padi	3 1/4		5 3/8
.. ozhaku	2 1/8		3 5/32
.. azhaku	1 1/3		2 11/16

Note. The heights given above for the various measures shall not be used for purposes of testing, but are intended only as a guide to the manufacturers of those measures."

2. In the case of liquid measures, it is not necessary to employ the above test, as liquids fill all space, and differences in the shape of measures do not affect the contents.

3. The capacity of measures should be tested by volume of water, for the proper performance of which, the stamping officer will be supplied with a specially constructed certified copy of primary standard and a specially constructed set of authorized measures as provided in Rule 8 *Supra*.

4. The following instructions should be attended to preliminary to the commencement of the process of testing :—

The best drinking water available should be obtained, as it is the clearest, the measure to be tested should be well washed out, and, if it is of wood, water should be allowed to stand in it for a quarter of an hour before testing so as to guard against absorption during the testing whereby the result would be falsified. If the measure is found to be leaky, the leaks should be caulked, on the outside only with a pitch or sealing wax.

5. The test should then be applied in the following manner :—

The rim of the measure should first be moistened : otherwise, water may stand without spilling, quite a sixteenth of an inch above it ; and in a measure of 5 inches diameter, this will represent 1·39 tolas of rice. The measure should then be filled with water by pouring into it from the special vessels according to the size of the measure under examination, Care should be taken to pour the water without overtopping the rim of the measure or spilling. The surface of the water should be exactly level with the rim. The quantity of water used to fill the measure can be easily ascertained from the number of times water was poured into the measure from the special vessels and from the quantity remaining in them. The quantity of water, if any, found to have been spilt or to have escaped by leakage should be deducted from the total quantity poured out from the special vessels. The remainder represents the capacity of the measure in cubic inches of water. If this is equal to the established capacity of the standard measure to which it purports to correspond the measure may be taken to be correct and stamped accordingly; otherwise it should be rejected.

As it is almost impossible to pour out liquid from measures filled to the brim, without spilling, the measures used for the purpose of testing should be special vessels made with a narrow neck and broad lip for pouring, and standardized to cubic inches.

C. Stamping of Weights and Measures.

22. Subject to the provisions of Rules 5 and 6 *supra*, only those measures of length which agree with the standard yard measure should be stamped.

23. The process of stamping weights of measures and capacity should be conducted in accordance with the following directions:—

(1) Large weights should be stamped on the top close to the handle on either side and smaller weights on any part (the handles excepted) having sufficient even surface to receive the impression equally. Flat weights should be marked eithe on the top or underneath.

(2) Wooden measures should be stamped by means of a steel dye at the very top, so as to guard against subsequent tampering.

(3) If there is a joining at the side of a measure, an impression should be made across it.

(4) To effect the stamping of metal measures, which should be stamped below the rim, it is necessary to introduce the beak of an anvil or beak iron into the vessel (held horizontally for the purpose); the part to be marked should be held closely and firmly down on the beak by one person, whilst another applies the die on the upper surface, and a third party strikes steadily with a sledge or heavy hand-hammer, until the required impression has been produced.

(5) Measures may also be marked on the bottom by being inverted on an iron stake with flat top somewhat larger than the dye.

(6) In applying a large dye on brass or iron, the sledge hammer must be used; for a small dye, the heavy hand-hammer will be sufficient.

(7) In the case of weights or measures of irregular shapes in use by bazaar-men, no uniform system can be prescribed; but care should be taken to mark them on a part on which the dye can be applied equally.

(8) The Wardens may engage the services of a smith, a hammer-man and bellows boy for performing the operation of stamping neatly.

IV. FEES.

24. The scale of fees prescribed for stamping weights and measures is given in Schedule I; but the Government may alter the rates from time to time. The scale will be so regulated that the fees realised are sufficient to meet the cost of the establishments necessary for stamping purposes. The establishment and other charges of each year should be so fixed as not to exceed the receipts of that year; but should there be any likelihood of a deficit at the end of a year, application for a special allotment should be made to the Government. The surplus receipts, if any, should be credited to the General Revenue. Every Warden shall maintain a register of weights and measures stamped and the fees collected.

NOTE:—In conducting the actual operation of testing, the stamping establishments should carry out free of extra charge any slight adjustment that may be found necessary, to make the weights and measures perfectly accurate, care however being taken not to attempt at corrections within the province of skilled workmen.

V. INSPECTION.

25. The Division Peishkars and the Superintendent, Devicolam Division, should inspect each party of the stamping establishments in their respective divisions as often as possible and ascertain whether the men understand their work and whether any unauthorised fees are collected. They should also note their remarks in an inspection book.

26. A report on the stamping operations should be submitted to Government by the Division Peishkars and the Superintendent, Devicolam Division, along with their annual departmental reports.
